HISTORICAL SOCIETY FEATURES "HOMESPUN" AT AUGUST MEETING

Homespun cloth and clothing were featured at the monthly meeting of the Bethel Historical Society held last Thursday evening, Aug. 4, in the meeting room of the Moses Mason House. Featured during the program was an introduction to spinning and weaving by Mrs. Floribel Haines of the Society's Museum Committee which was responsible for the program. Also on display were examples of homespun from the Society's collection including a shirt and coverlet.

Following Mrs. Haines' presentation three films were shown. One based at the Farmer's Museum at Cooperstown, N. Y., illustrated the steps in which flax was prepared for spinning and weaving. Another film showed the preparation of wool for use in a loom by a Swedish immigrant in Minnesota. The final film documented certain types of clothing worn in Williamsburg, Va., during the Revolutionary era.

A nominating committee consisting of Floribel Haines, E. M. Quinn and Mary Valentine was appointed to present a slate of officers for the 1977-78 year at the annual meeting to be held on Sept. 1.

COMMENTS FROM THE TOWN MANAGER'S OFFICE

The Planning Board met Wednesday evening, Aug. 10, to continue work on updating the Comprehensive Plan. They discussed elements regarding population, housing, socio-economic development, and transportation. The initial drafts of these sections have been prepared by Androscooggin Valley Regional Planning Commission.

The population census being undertaken by the Planning Board is progressing well and should be completed within the next two weeks. The Board is also contacting businesses and civic organizations to obtain information regarding past and present trends as well as future goals of the community. The next major step in the process of updating the Comprehensive Plan will be an inventory of current town services. This information will be used in developing services programs to meet the needs and desires of the community for the next five, 10 and possibly 20 years.

The National Guard will be starting work on reconstructing the Bird Hill, Chandler Hill, Reservoir Road and Grover Hill Road bridges starting Aug. 13. This will mean that the Bird Hill Road (off the Gore Road), the Chase Road (off Chandler Hill Road), the road into the reservoir and a section of the Grover Hill Road by the East Branch of the Pleasant River will be closed to traffic for approximately two weeks.

The Community Safety and Law Enforcement Committee met Wednesday evening, Aug. 10 with Bob Stearns and Bill Lynch to review current summer services. The Committee will be making recommendations to the Board of Selectmen whether to continue the use of two full-time police officers on a year round basis; to use two police officers only during the summer months or to develop some other alternative. Committee members request that citizens with comments or concerns regarding the level of police services contact any member of the committee to express their views prior to the committee's next meeting Sept. 14.

WHITE MT. NATIONAL FOREST SENDS TWO CREWS TO FIGHT CALIFORNIA FOREST FIRES

The White Mountain National Forest has sent two 20-man fire-fighting crews to the western states to assist in efforts to control the many forest fires in those areas. One 20-man crew was requested on Friday, Aug. 5, by the Boise Interagency Fire Center located in Boise, Idaho, which coordinates requests for manpower, equipment, supplies and air power for various federal and state agencies during fire emergencies. This crew has been assigned to the Marble-South Cone fire on the Los Padres National Forest in central California, near Monterey.

A second 20-man crew was requested from the White Mountain National Forest on Monday, Aug. 8. These men have also been assigned to the Marble-South Cone fire which now covers 87,000 acres of brush country and scrub oak growth.

The two crews from this area are within ten miles of each other, about 25 miles from the California coast. They joined a force of approximately 3,600 now on this fireline.

Included in these two 20-man crews have been eight men from the Evans Notch Ranger District in Bethel. It is anticipated that these men will spend two to three weeks on the fires before being released to return home.

He had a good time.

Friday my folks came up to show Frank and me their new car.

Real Estate

by PAT EARLY

REALTOR

A Realistic Approach

During inflation (and we're
in it), there's an excellent case
for investing in real estate.

Most of the investment is paid
for with borrowed money. Some-
one else's fixed-dollar savings
provides your mortgage money.

Even though home prices have
risen several notches each year,
a mortgage loan is the only way
the average consumer can
borrow long-term money.

This, then, is your big chance
to turn inflation to your advan-
tage. Your mortgage gives you
full-price dollars to work with
today. You then pay them back
with cheaper dollars you will be
earning for the next 20 to 30

years. On top of that, with an
average 6% inflation rate, home
values double every 12 years.

This isn't a cynical approach.
It's realistic. In fact, it's one
of the main reasons why many
wealthy individuals continue to
make big real estate invest-
ments. And you can do the
same with a home that you
own and need anyway.

If there is anything we can
do to help you in the field of
real estate, please phone or
drop in at EARLY REAL
ESTATE, 60 Main St., Bethel.
Phone: 824-2122, 824-2579.
We're here to help!

ram Fish and Game Association

BETHEL RIFLE GUARD ROMPS AT RANGELEY

The Rangeley Guides and Out-
fitters annual blackpowder shoot
festivities and chicken barbecue
of Aug. 7 proved to be quite a
success for the Bethel Rifle Guard.

Hugh Awaft placed second in the
flintlock rifle and first in the
explosive rifle events. Tied for sec-
ond place caplock rifle was Fred
Haines and Bob Curtis; while Fred
took in the shoot-off, giving Bob
a good solid third place. All rifle
shooting was done from a stand-
ing position at 75 yards range.

Unfortunately Bethel's pistol
shooters, George and Peter Haines,
were absent and much missed.

The shooting events were cap-
ped by a long-range one-shot ev-
ent, an entente cordiale, later
called a party at 11 year olds en-
joyed a party at the home of Mr.
and Mrs. Pat Murphy which fea-
tured pony rides compliments of
Melinda and Carole Mason. The
12 to 23 year olds enjoyed a party
at the home of Mrs. Jean Grover.

The activities were under the di-
rection of John Smith and fea-
tured relay races and an exciting
game of kickball. The young peo-
ple enjoyed a cook out at the
Grover's cookout area. The youth
appreciated the hospitality of both
the Murphys and Grovers for use
of their homes and yards.

Sunday evening a special church
meeting was held to vote on the
purchase of a parsonage. The
Maine District had given their fi-
nal approval contingent on the
approval of the voting members
of the local church. The purchase
was unanimously approved. Rev.
and Mrs. Smith and children hope
to be able to be in the new par-
sonage by the time Robert starts
kindergarten in September.

The Sunday School of the Naza-
rene Church announce they have
started a new class of young ad-
ults ages 13-35 also any younger
married couples are included in
this class. A special nursery class
for babies 0-3 years has also been
started under the supervision of
Mrs. Mary Cobb. Older children
are also welcome to attend any
of the regular classes. All classes
start at 10 a. m.

ening from 8-10 p. m. on the
Songo River Queen in Naples.

When you hear those two words, "vital signs," do you know what they mean? The magic number is 9: Respiration, Pulse, Blood Pressure, Skin Temperature, Skin Color, Pupils of Eyes, State of Consciousness, Ability to Move, Reaction to Pain. These are also referred to as signs of life in a person. Each of them is important in diagnosing medical problems.

The BEARS column will be bringing you this kind of emergency information weekly. We suggest you cut them out and save them.

— Mrs. Colista Morgan, Corres. —

The paragraph "Where are the years?" written by Orpha Coleman tells of joyous years of childhood, sparkling years of youth, earnest years of maturity and hard work. But these lines I have thought about since August 4th when my mailbox was heavy with cards and I added another birthday.

"Where are the years?" "They are gone," do you say? "They have receded into the past, they are lost to us forever?" Nay, they are not lost, nor have they fled. They are still with us. They are character, principles, ideals; they are the component parts of our today. Where are the years? WE are the years.

One morning in the great chamber of silence, I watched the messengers of dawn pull back the curtains of night, put the stars to bed and open the doors of the east to the monarch in the sky. It marched, dazzling in all its splendor to usher in another day. "A time to catch the beauty of a sunny, cloudless sky, enjoy the gifts of August, November, let them pass you by," Lois Anne Williams.

This is the summit of the summer season. Rushing past are the dragon flies, with the purplish bodies. I can hear them at times as they move in and out blundering under leaves by the pond. They swoop, among the blue flag and the picket weeds.

New flowers have appeared. Joe-Pye-Weed is tinged with the "crushed raspberry" in all the low lands we pass.

The wood lily is sometimes seen near the shadowy woods with a vivid dash of color which has caught a stray sunbeam in its glowing cup.

Tucks cap lily with beautiful lines, flashes into our memory with new significance of meaning when we chance suddenly upon a meadow bordered with them.

Our bee-balm, those flowers, so loved by the humming birds en-

hance their beauty when grown against an appropriate setting.

Through humid days a heat blanket spreads over the cut hayfields. The boulder dotted pasture stands out against the woodlands.

Mornings, there is mist above the pond. But when the sun slants its rays upon it there is an interlude of loveliness. Momentarily the mountains come into view with only here and there low spots like a white veil is seen tossed on the floor of the meadows.

The flowers that hang are impearled with dew. If shaken, the beads roll off and no drops of water can replace those that fell silently during the dark hours. I marvel at the wonders that transpired over night.

I spent one day at the seashore where sea gulls dipped on graceful wings. They whirled above us and ate at our feet. They filled the sky with silhouettes of white and gray; and left memories of a lovely day.

Mr. and Mrs. Milton Inman were at the seashore for the week end. Mr. and Mrs. John Betts, Portland, N. H., were at their cottage here a few days last week.

Mr. and Mrs. Robert Holt, Windsor, and son, Danny, were at Mr. and Mrs. Leonas Holt's on Sunday.

Mr. and Mrs. Ernest Morris have been at their camp at Aziscoos Lake for a few days.

Zyphila DiArenzo and daughter Louise, Fay and Ann Holt, and I spent Friday at Two Lights.

Evelyn Tamminen, Yarmouth, Ruth Hastings, South Paris, and I attended the Historical Society meeting at the Moses Mason House in Bethel, Thursday evening.

Our callers this week were: Fred Curtis, East Sumner; Mr. and Mrs. Carl Brooks, Mr. and Mrs. William Slatery, West Paris; Mr. and Mrs. Robert Holt, Windsor; Ruth Hastings, South Paris; Evelyn Tamminen, Yarmouth; Ann Holt, Bethel; Eva Felton, Kathy Curtis, Fay Holt, Dorothy Curtis, Local.

Mr. and Mrs. Erwin Hayes and two sons, Hyde Park, N. Y., and their daughter, from Indiana are at the Hayes Homestead for a few days. Mr. and Mrs. Ardell Hayes, Auburn, were callers on Sunday as well as several others.

Fred Curtis, East Sumner, called on his brother, Frank, one day this week.

Mr. and Mrs. Ernest Morris entertained their son and wife from Connecticut and two grandsons over the week end.

We Plug The Draft Holes and You Save

Up To 35-40% On Fuel Consumption

ANY HOME, new or old, can be fully insulated to cut your costs. Our trained crew blows superior Cellulose insulation in attic and walls without muss or fuss.... without disturbing your household routine. The fuel savings pay for the job.

Drafty rooms, snow melting from your roof, walls that are cold to the touch, all mean escaping heat and excessively high fuel bills. Insulation blown into your walls and ceilings stops all this. Cuts fuel bills as much as 50%. Keeps your home as much as 15% cooler in summer and lowers air conditioning costs.

Because Cellulose is an extremely light weight material that is blown in place under pneumatic pressure, it completely fills all areas. No voids are left. Cellulose flows around wires, pipes, and cross bracing to give complete and lasting thermal protection.

I have a big surprise, my home for the last 44 years is getting a real change in looks. It's all white with dark green trimming. I have been over 50 years since it was last painted. This was a Mother's Day gift from my son and family and others. Yes, the grandchildren are using paint brushes to help. Many will not know the place. Thanks to one and all for the surprise.

CORRECTION

A sentence in last week's "Citizen" in the account of the Aug. 1 S. A. D. #44 board of directors meeting should have read: "Superintendent Kenneth Smith stated this was not a court-type settlement but was an issue resolved as part of the regular negotiations process under the auspices of the MARRB." The sentence alluded to the financial settlement with the three former elementary school supervising principals.
